

PROBLEM STATEMENT

Current Solution: Currently there are many diverse models of communication channels on campus including emails, instant messaging, social media, notices , posters and display panels.

Solution needed: A smart solution to deliver more effective communication to desired groups.

~Aman Kapoor

~Alajangi Niharika

~Ankit Yadav

APPROACH

We intend upon creating a common communication platform which will be separately accessible to students and teachers/club co-ordinators where students will have read only permissions where as teachers will have both read and write permissions . Both can login through respective CMRIT email ids.
